

The background of the entire image is a high-quality marble pattern. It features a mix of light cream, off-white, and pale grey tones, with intricate, flowing veins of gold and light brown. The veins vary in thickness and direction, creating a dynamic and elegant texture. The overall effect is one of natural luxury and sophisticated design.

TRIAXTONE

NATURE'S FOOTPRINT FROM THE PAST WITH DESIGNS FOR THE FUTURE

About Us

TriaXtone was founded by Apexstone Amoy Marble and Granite.

A company that was established in the stone industry 17 years ago, supplying stone products to 42 countries world wide.

A team of artisans, working with and alongside a British master designer, Phillip Dutton White to create beautiful household artworks with a commitment to fabrication, quality, design and luxury.

The collection from TriaXtone bring “whispers millions of years old from Mother Earth”.

Inspiration From Nature

Stone, nature's creation has been forged by millions of years of earth movement and geological sedimentation. The force of time, inscribed deeply in all parts of its evolution. Microstructures containing colorful decoration, mineral pigments, sparkling crystals and fossilized shell fish are imprints and shadows that make each piece totally unique.

As early as the “Stone Age” our ancestors were shaping this material to help them live, “tools for survival”. Then as mankind progressed they carved, shaped and breathed life into this geological marble. Man's creativity, his ideas, his words, his thoughts and love were shaped in stone, leaving us with a recorded history of time and objects of immense beauty.

Triaxtone invite you to feel the artistry, to observe the beauty and elegance with your eyes, to listen to nature's stories with your ears and to explore its legends with your hearts.

The collection from TriaXtone brings “Whispers millions of years old from Mother Earth”.

Bespoke

2400 VARIETIES OF MATERIALS

Apexstone Amoy Marble and Granite has access to the largest stone market in China with more than 2400 colors of natural stone.

This number includes marble, granite, limestone, travertine, onyx, and gemstone quarried from all over the world.

Here we select and handpick the most beautiful and luxurious marble for our TriaXtone products.

Please look at more stones that are available from stoneGPS.cn, an app that has been exclusively created by Apexstone programmers to assist you with your selection.

Please contact us for our Bespoke design service and products that are totally unique. You can use the services of our genius chief designer Phillip Dutton-White to design an exclusive item for you.

Color Palette

Golden Empire Marble

Golden Empire Marble reminds people of the Empire of Alexander the Great.

The yellow background with veins like cracks deliver a feelings of ancient civilizations.

Looking at the marble reminds one of boundless sands, long camel trains and the sound of distant bells.

Color Palette

Rhapsody Blue Marble

Nature plays a Rhapsody in Blue Marble, veins and lines all dance to the beats, that's the story told by Mother Earth.

The big patterns are unique, romantic and artistic. Rhapsody Blue Marble - Breathes freedom into your life.

Color Palette

Blue Pearl Labradorite

Blue Pearl Labradorite is a gemstone with a dark background and shining blue sparkling flakes.

Can be used for jewelry especially bracelets and necklaces.

Color Palette

Dutton-White

a flutter a flap of tiny wings
across the ancient earths cascading carvings

"a treasured journey in time"

Florence Grey Marble

Florence Grey Marble is a beige/grey marble with dynamic veins which reflect the Renaissance style church facades.

Its classical antique look does not stop it from being used within modern interior applications where it gives a feeling of luxury and calmness.

Color Palette

Andes Snow Marble

Andes Snow is an off white marble with a landscape look. It is quarried in the Andes mountains of Brazil.

The natural pattern of the marble that reflect flowing water, attracts lovers of natural stone worldwide.

Used by interior designers to give living areas and wall panels that luxurious exclusive feeling.

Color Palette

Dutton-White

let the thunder overtake you
as lightning fills the sky
feel the force of nature overwhelm you and then it liquify
"a treasured journey in time"

Shakespeare Flashing Marble

Shakespeare Flashing Marble is a dark brown marble with golden flashing running from top to bottom.

Color Palette

Cloudy White Marble

Cloudy White Marble has dramatic veins cascading over the stone slab.

A symphony in black, grey and white
reflecting the color of the clouds upon the
sea.

Color Palette

Delta Green Marble

Delta Green Marble is a mixture of green and blue marble with a neutral grey background.

When cut into a thin slab of less than 5mm it becomes semi transparent.

Color Palette

Dutton-White

sea shells cast upon the ocean floor
have travelled leagues to find out more

"a treasured journey in time"

Shell Fossil Marble

Shell Fossil Marble is made up of a deposition of deep-sea shell fossils over hundreds of millions of years.

According to the cutting direction of the blade, the spiral pattern or the axial cone pattern can be obtained from the shell.

When carved into three-dimensional products, complete shells can be seen.

Color Palette

Feather Moon Marble

Feather Moon Marble, background in dark colors, along with Shiny gold crystals and flowers.

Veins in feather shapes with clear lines lay on the surface, the style is a combination of nobleness and mystery.

Dramatic moments of Mother Earth.

Color Palette

Dutton-White

the elephants tramp upon the ground
leaving footprints and rebounding sounds around

"a treasured journey in time"

Sweet Rose Marble

At first glance the look of this Sweet Rose Marble, leaves an impression of elegance, freshness and delight.

The base color is white with pink, and the veins are like foams and bubbles on the beach.

For girls looking for a feeling of summer, this natural marble is an ideal choice.

Color Palette

Carrara White

Carrara White inherits the classic and elegant white design, with unique natural lines, smooth and bright texture, and endows the space with a simple and luxurious beauty.

It is favored by designers and owners, which is widely used in the decoration of high-end hotels, villas and leisure places.

Michelangelo's work “David” is carved from it.

Color Palette

tiger, tiger with your cub
a mothers love, a lifetime hub

"a treasured journey in time"

Forest Green

Forest Green is like an ecosystem of plants, animals and other living things. As if a tiger, deer, or boa constrictor would jump out of it.

Forests give people a feeling of mystery, can stimulate the desire to explore. Green is the representative color of nature, making people calm and relaxed.

Take a moment once in a while to enjoy the excitement of this calm.

Color Palette

Dutton-White

the frogs they croak there song of joy
even though the Brazilian rainforests mankind still destroy

"a treasured journey in time"

Amazon Sodalite

As a kind of equiaxed crystal system,
Amazon Sodalite is rare in nature.

The blue-purple background changes in
shades, coupled with mottled patterns
criss-cross, it looks calm and noble.

It can combine intuition and reason, open
people's spiritual perception, and make
them meditate deeply.

Color Palette

Dutton-White

colours are like pixels upon a broad canvas base.
impressions of nature through a painter's
brush escape .

"a treasured journey in time"

Lafite Impression

Colors are like pixels upon a broad canvas
base.

Impressions of nature through a painter's
brush escape.

Color Palette

his brush flows across the stretched linen surface.
images from his mind to tantalise and
disturb us.
"a treasured journey in time"

Picasso

His brush flows across the stretched linen surface.

Images from his mind to tantalise and
disturb us.

Color Palette

Dutton-White

colours and brush strokes collide with vigour
creating images that make the mind richer

"a treasured journey in time"

Van Gogh Gold

Colours and brush strokes collide with
vigour creating images that make the mind
richer.

Color Palette

Dutton-White

lines and veins upon on a white marble base
creating images of the past through natures haste

"a treasured journey in time"

Magnolia White

Lines and veins upon on a white marble
base creating images of the past through
natures haste.

Chief Designer

Phillip Dutton-White is a Master of the Royal Society of Artists & Designers with over 50 years experience in his craft. His work has taken him over 6 million miles, to all five continents and to virtually every major city in the world.

Companies such as Rolls Royce, Bentley, BMW, IBM, JCB, Warner Brothers, Gulfstream Aerospace, Honda cars, Mitsubishi, Raytheon, and hotel groups such as Hyatt, Hilton, Langham and Trithorn Investments plus many more. Private customers, most of them from California and Asia, where he has helped design villas, jet interiors and yachts and of course commissioned paintings to illuminate their walls.

Phillip is proud to be associated with “TriaXtone” and to use his knowledge, design and marketing skills to develop and evolve his works of art into a leading luxury brand.

“Nature's footprint from the past with designs for the future”.

Phillip Dutton-White

Chief Designer

Concept to reality

My art is all about excellence, capturing the skills, talent, mastery, passion plus the very soul of my subjects on canvas and paper in acrylic, watercolour, oil and graphite.

People and machines which throughout history have achieved and pushed the boundaries in their chosen professions.

- Phillip Dutton White

Artist and designer Phillip Dutton-White has many interests. The range of his creativity is not just racing cars and their heroes, but includes many artistic subjects and titles across the world of art and design.

Phillip will make your dreams come true and custom design it to suit your lifestyle. His talents are not just limited to the range of household and furniture products shown by TriaXtone. His portfolio includes complex and unique designs, for interior and exterior use, within homes of many famous actors, actresses, directors and producers in Hollywood California.

Our Technology

The TriaXtone products are not only for decoration, but have functions for daily use. The characteristics of natural marble are that it can be easily stained, corroded and scratched.

We have taken every effort to introduce the industries-leading technology within these household products so that you can safely enjoy nature's beautiful textures and formation.

Our Technology

7H ANTI-SCRATCH

The surface coated with 7h anti-scratch has hardness up to 7h.

ANTI-STAIN MARBLE

Anti-stain marble stops the surface of the marble from stain or corruption by various liquid contaminants such as tea, cola, wine and lemon juice.

HYDROPHOBIC/ WATER REPELLENT

The product can be restored or cleaned by flushing with water, without grinding or wiping.

Our Technology

SUPER LIGHT

The marble has been subject and reinforced with materials from the aviation industry, this helps reduce weight and to be in line with ergonomic principles.

This super light furniture has a long service life within humid conditions such as bathrooms or near the sea or oceans.

FOOD CONTACT SAFE SEALER

The world's top technology of nano silicon-based material has been applied on our products as a food safe contact sealer.
